FLEX-SURFACES

BY HABITAT-ONE

Interior visualisation

MATERIAL BOOK / OCTOBER 2026

The material collection.

37 material finishes · 133 colour variants

ENGLISH

Texture, light and a sense of place.

Flex-Surfaces is a collection of flexible decorative wall panels. Explore the character of stone, timber, concrete and layered earth through the available finishes. The selected colour and panel size help shape the rhythm of a surface.

Three collection formats.

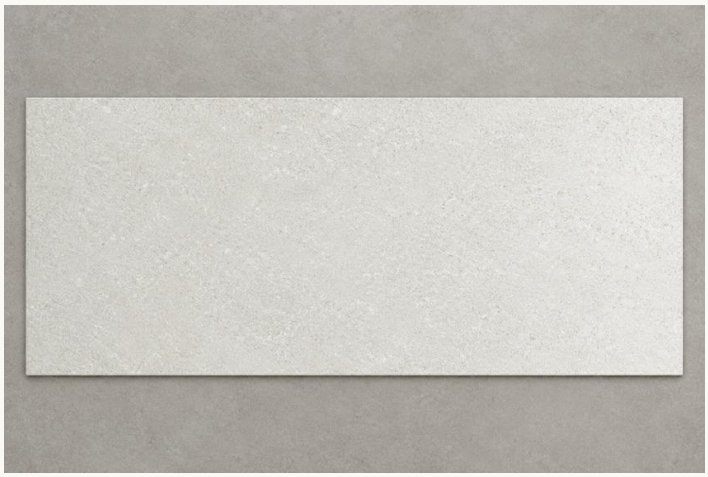

3000 × 1200, 1200 × 600 and 900 × 600 mm. The available sizes are listed for each article code; not every variant is supplied in every size.

In this collection

Travertine look	45	03
Wood look	6	18
Concrete look	4	20
Stone textures	51	22
Linear textures and relief	8	39
Earth textures	8	42
Marble look	11	45

The images in this book are panel visualisations and inspiration images, including AI-generated imagery. They do not document completed projects or certify a particular application. Confirm colour and texture with a physical sample.
